

Little Star

Verse 1

Twinkle, twinkle little star
How I wish you weren't so far
If I could I'd learn to fly
And go and see you in the sky

Chorus

Little star shine so bright
That the world may see your light
Little star, my delight
You're welcome every night

Verse 2

Unlike other stars I see
You will always speak to me
And this is what I hear you say
"Come on out; let's go play"

Chorus

Verse 3

You're the only star I know
Who'll smile upon the earth below
That is why I think it's true
That you know me and I know you

Chorus
