

# **Photographs**

## **Verse 1**

Photographs hanging on the walls  
In all the rooms and all the halls  
Taken all by you as I recall  
Each with its own history  
And very special memories  
Of moments shared in time by you and me

## **Verse 2**

When it seemed that all was fine  
That love was great and life was kind  
Everything just turned upon a dime  
Suddenly you slipped away  
And now I don't know what to say  
I'm at a loss to make it through the day

## **Chorus**

Your photographs on the walls  
In all the rooms and all the halls  
Are my attempt to keep you near  
Cause through your photographs  
I believe that you are here
