

Diamond in the Dust

A Tribute to Susan Boyle

Verse 1

You walked into fire
Facing friend and foe
On a stage where dreams are made
As you would come to know

Verse 2

A gem undiscovered
For so many years
Hidden till you dreamed a dream
And brought us all to tears

Chorus

And with your voice eyes were opened
A spell was broken
You helped us see that you indeed
Are a diamond in the dust

Verse 3

What once lay before you
A fetid sea of scorn
Soon became a sea of love
For you to sail upon

Verse 4

And in that precious moment
When all the tides did turn
A nightingale from Scotland
Taught a lesson to be learned

Chorus

And with your voice eyes were opened
A spell was broken
You helped us see that you indeed
Are a diamond in the dust

Instrumental

Chorus

With your voice eyes were opened
A spell was broken
You helped us see that you indeed
Are a diamond in the dust
You helped us see that you indeed
Are a diamond in the dust
