

## **St. Jude**

### **Verse 1**

Hello, we're back again, St. Jude  
This time's a little different, we're here to bring good news  
Our daughter's doing well and as far as we can tell  
The chemo's doing what it needs to do

### **Chorus**

It wasn't long ago we were both down on our knees  
Desperately imploring help for you to hear our pleas  
It looks as though she'll thrive again with much continued care  
St. Jude, we want to thank you for answering our prayer

### **Verse 2**

Hello, we're back again, St. Jude  
To let you know our daughter's life seems to be restored  
Her pallid tone replaced by rosy cheeks upon her face  
A sign of hope that we've been looking for

### **Chorus**

It wasn't long ago we were both down on our knees  
Desperately imploring help for you to hear our pleas  
It looks as though she'll thrive again with much continued care  
St. Jude, we want to thank you for answering our prayer

### **Instrumental of one of the verses**

### **Chorus**

It wasn't long ago we were both down on our knees  
Desperately imploring help for you to hear our pleas  
It looks as though she'll thrive again with much continued care  
St. Jude, we want to thank you for answering our prayer
